

# My new smile... Gives me Confidence!

Have you ever thought about the power of a beautiful smile?

One of the first impressions we make is with our smile. What impression does your smile make?

At Smile Artistry, we have for many years been creating amazing smiles, and maintaining amazing smiles. By utilising the latest techniques and procedures in a total care approach, we can assist you with enhancing your smile and all your dental needs. By experiencing Positive Dental Care, you can have both a healthy mouth, and an amazing smile!

## Case Study

Tina is Smile Artistry's Office Coordinator. Tina found that she often covered her mouth in front of our patients in an attempt to hide her crowded, worn and discoloured teeth. A detailed assessment of Tina's mouth revealed significant variation in the colour of her teeth, crowding of her teeth and a constricted bite setup which was causing heavy wear on her front teeth.

To create Tina's beautiful new smile we performed Teeth Whitening on the lower teeth and placed Porcelain Crowns on the upper front teeth. Not only has this given Tina the confidence to smile in any situation, but her new bite setup will give her teeth protection against heavy wear in the future.

The case study illustrated is representative of the model shown.
