

Prior to your First Consultation at Smile Artistry!

During your Consultation Appointment, our Dentists will make more than just recommendations to develop a personalised Dental Plan to address your concerns.

Our Dentists will be assessing many mouth factors which will lead to the creation of your own personalised Dental Plan. It is a good opportunity to take a holistic approach to check the health of all your teeth and gums.

Your Dental Plan may then also require further records to assist us in giving you:

- Strong Teeth
- Healthy Gums
- A Beautiful Smile!

Your Consultation will cost \$97.

Our Dentists want to understand your specific concerns, so please be prepared to let us know what your concerns are.

The Next Steps Following Your Consultation ->

Step One: Treatment Records Appointment

To create your Dental Plan, your Dentist will identify specific types of records such as Digital X-Rays, 3D X-Rays, Digital Photographs, Impressions, Models and Bite Analysis.

You will be able to claim this treatment through your health fund but there will be a gap to pay.

Step Two: Treatment Discussion Appointment

Following your Dental Records, we will sit down and explain and make recommendations for your Dental Plan. You will receive a detailed report and letter detailing recommended treatment and stages required.

There is no cost for your Treatment Discussion Appointment.
