

# Teeth Whitening at Smile Artistry™

**We find that having an attractive and beautiful smile allows you to care for your teeth better. At Smile Artistry™ we encourage you to maintain a beautiful tooth colour with Teeth Whitening.**

Teeth Whitening is the process of removing discolouration and staining from within your teeth. With recent advances in Teeth Whitening Technology we can achieve better results with more comfort.

## **Teeth Whitening Benefits**

Teeth Whitening has many cosmetic and aesthetic benefits. Light, bright teeth can take years off the appearance of your smile. It is simple, effective and safe.

## **Teeth Whitening can whiten and brighten your smile instantly!**

The process of Teeth Whitening, when performed on appropriate, healthy teeth and gums, has very little risk and side-effects. Temporary Sensitivity of teeth will be experienced by some people for less than the first 24 hours, after which this will go away. Teeth with mottling or uneven discolouration may not whiten fully, and should be checked before teeth whitening is performed by a Dentist.

## **The Teeth Whitening Process**

The Teeth Whitening Process involves four stages:

### **1. Free Consultation**

During your consultation with the Dentist and Hygienist, they will check and discuss your suitability for teeth whitening. They will ensure your teeth and gums are healthy and ready for the process. Also the 'expected' outcome will be discussed at this stage.

## **Zoom™ Advanced Power Teeth Whitening will give you a maximum whitening effect in a short period of time!**

### **2. Impressions**

Impressions of your teeth will be made at your free consultation or at your Zoom™ appointment so that our technicians can construct your complimentary personalised home maintenance whitening trays.

### **3. Zoom™ Appointment**

Your Zoom™ Appointment will be scheduled for about 90 minutes and during that time 45 minutes of Teeth Whitening will be performed. The Zoom™ appointment is easy and comfortable and many patients will choose to watch a movie during the procedure.

## **Your Teeth and Smile can be brightened in less than one hour with Zoom™ Teeth Whitening!**

### **4. Maintenance**

Maintenance of Teeth Whitening is simple and effective. Your personalised trays should be worn for an hour a day, for three days, once or twice a year. The frequency will depend on the colour of your teeth and your on-going diet. Patients who have had Teeth Whitening at Smile Artistry™ are welcome to purchase Nite-White Whitening Gel for Home Use at discounted rates.

## **Teeth Whitening Costs**

The cost for Zoom™ Teeth Whitening includes a Free Consultation and a Free Maintenance Teeth Whitening System with personalised Trays.
